

# You Deserve A Better Than Average Hospital

## CORAL GABLES

Hospital

Coral Gables Hospital may look small from the outside, but inside we're doing big things. According to a hospital comparison report by Medicare, we rank higher than the national average for treating heart attacks, heart failure and pneumonia\*. In fact, we ranked better than many of the bigger hospitals in the area. Better than average. Because of our doctors, more lives are saved, and that's big news we'd like everyone to know about.
